## 1. Blood Moon, Sep 2025

I hang by myself  
My soulmate got locked up by an evil empire  
Now I'm out here making deals and negotiating for her safe release

...  
Aight?

We the generation that left church, and got closer to God  
We the generation that seek Truth, make 'em scoff and judge  
We the generation that don't care for Amushelelo or Charlie Kirk  
We the generation that evoke powers under candlelight

...  
Aight?

I left earlier than usual, I've got somewhere to be  
A date with The Moon, specifically  
And it's gon' be a bloody affair  
And I'm from a different air, it's insane how they all feel it on me  
And your fate R. Kelly  
I believe that i can fly  
A vessel of God; he uses me to preach and spread His Light  
Not too fond of niggas coz they always wanna compete with me  
Back-to-back-to-back pussy on me, and their bitches constantly throw it at me  
I spark up their soul, and they LOVE how i make 'em FEEL  
Sike, bitch! Same colours you got on  
Black and red, yes it's me  
Say, little beast... if i fucked you hard,  
Will you scream?  
Say, little bitch... there's life over here,  
Can you feel?  
C'est la vie  
I'll be on a roll on these streets

My Devil signal serving as an antenna 🖐  
The fire in my eyes burns everything i see

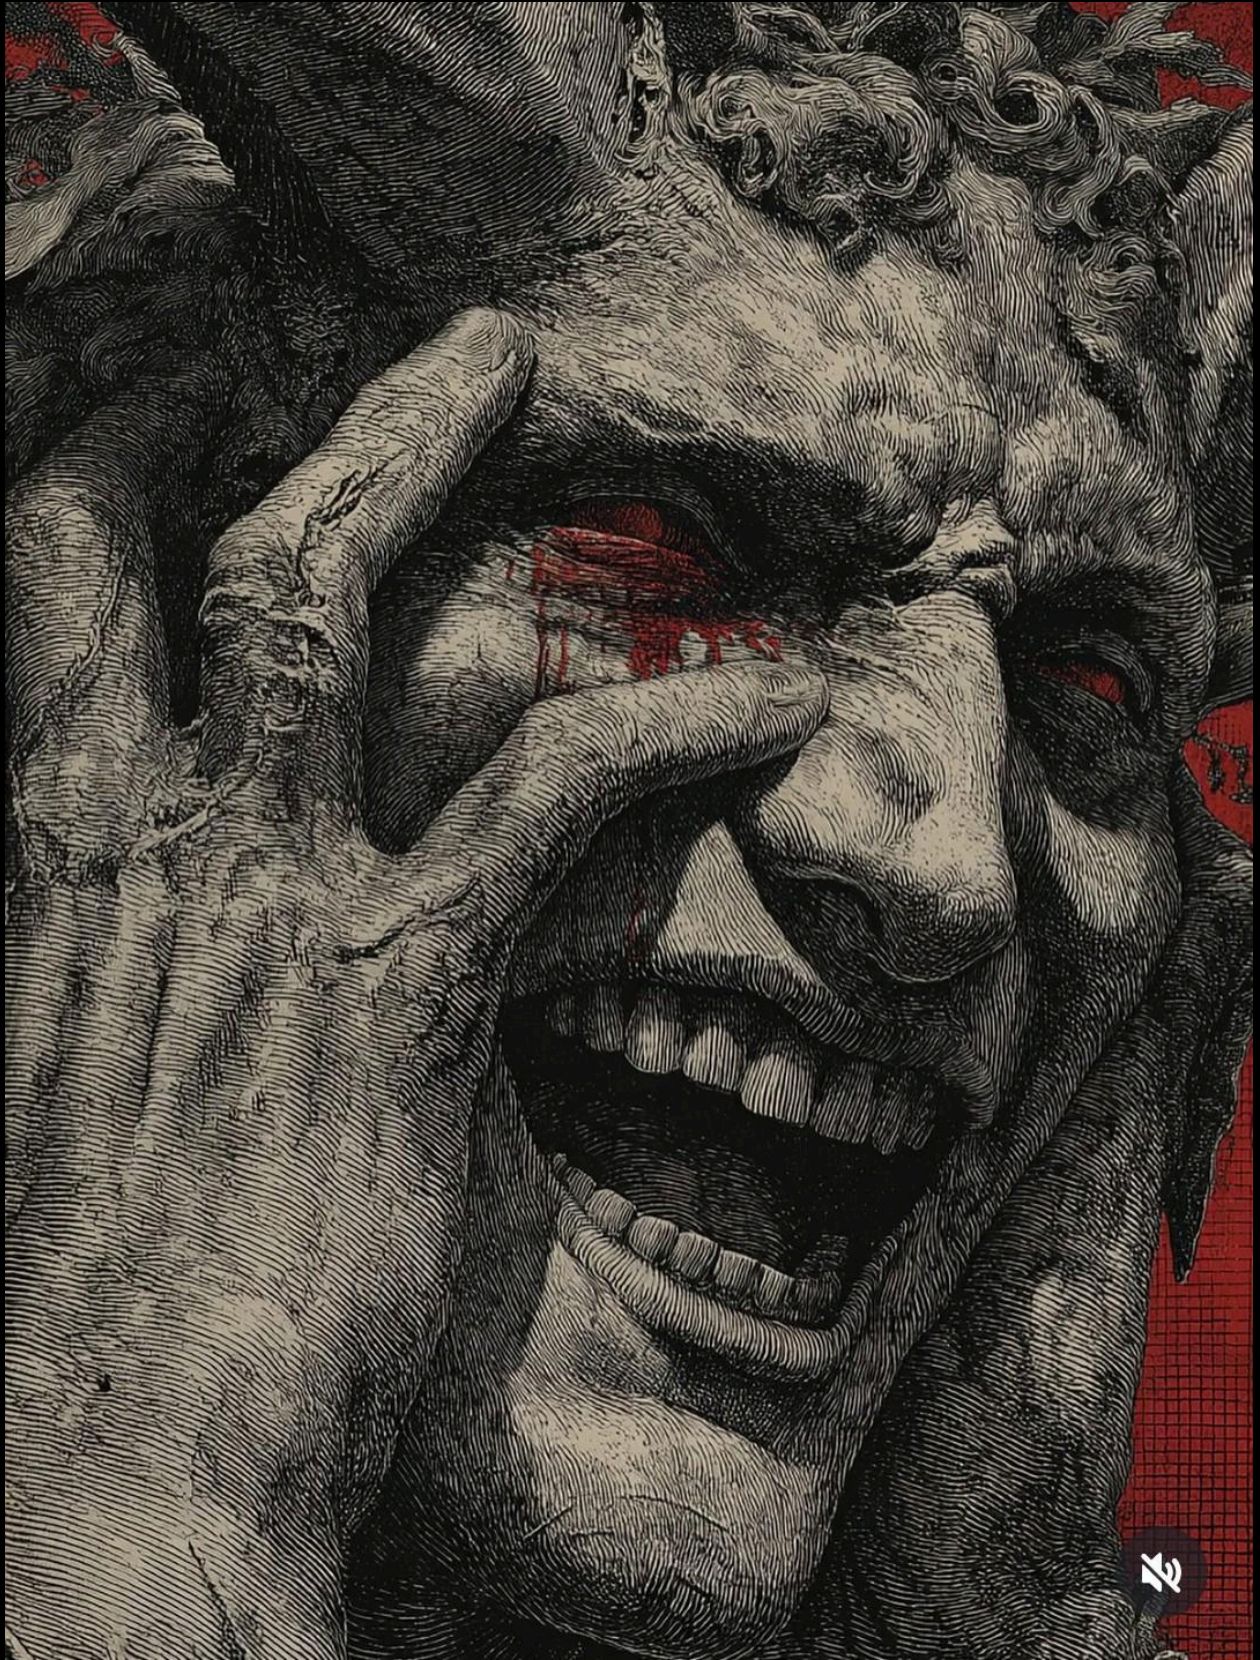

I hang by myself  
My soulmate got locked up by an evil empire  
Now I'm out here making deals and negotiating for her safe release

...  
Aight?

We the generation that left church, and got closer to God  
We the generation that seek Truth, make 'em scoff and judge  
We the generation that don't care for Amushelelo or Charlie Kirk  
We the generation that evoke powers under candlelight

...  
Aight?

## 2. At The World's Fair

All of my little adoring fans, are  
Fans i don't have anymore  
How do you turn on me so quick when you can't have all of me?  
Guess I'll just go back to my prayer corner  
My sanctum

All of my little adoring fans, are  
Broken girls who crush on me  
Guess that's why they say you can't save a hoe  
Coz sometimes i just do way too much

Always saw you for what you could've been...  
Ever since you panicked on that day when you made that phone call and i spoke to  
you directly, I...  
Always saw you for what you could've been...

And even when it's "just work colleagues", you always try to squeeze yourself in  
I knew you before i knocked the doors in  
And now the doors are hanging on a hinge

And it's all because you couldn't handle my light  
You're supposed to lay your plight to rest and shine for me  
Guess it wasn't time..... (yea)  
And of course, you went and chose a light that wasn't mine

You're so predictable, I'm indifferent to you  
Funny how those walls you wanted, are now built for you  
How are you supposed to open up and make my house a home  
You can't even feel at home with yourself  
You judged me soon as i pushed you, yea it figures  
I make all the top players reconsider

With God up in Heaven is where i belong  
Out here at The World's Fair i don't know what's going on...

### I DON'T KNOW WHAT'S GOING ON !?

And it's all because you couldn't handle my light  
You're supposed to lay your plight to rest and shine for me  
Guess it wasn't time..... (yea)  
And of course, you went and chose a light that wasn't mine

You sit and you dilly-dally, hoping a breakthrough will come  
I calculate and strike, backed up by my God  
When i pulled you up, you let go and ran away  
You chose your ways, i guess you have that right  
Everybody around us with their hands in the air  
Constantly gets in the way  
A fool and a servant repressed with minimum wage  
Someone up there must just love testing my patience  
Someone up there must see my life as drama entertainment  
Forgive us for our ways  
If i ever loved you, I'll always love you, that's how my grandma raised me  
Same way I'm right here still holding my sword  
Same way I'm realising that love is not enough

All of my little adoring fans, are  
Fans i don't have anymore  
How do you turn on me so quick when you can't have all of me?  
Guess I'll just go back to my prayer corner  
My sanctum

All of my little adoring fans, are  
Broken girls who crush on me  
Guess that's why they say you can't save a hoe

Coz sometimes i just do way too much  
Just too much

You don't know... how could you ever know !?

### 3. Heavy Wears The Crown

I hate when people say they feel me, man  
I hate that shit  
It will be a long time before you feel me  
If ever ... for real

You won't feel me till everybody has a deal for you, but it's no deal  
And your class is top class  
And your exes can't help but love you  
And your family always wants a piece of your life  
The play you make always needs to be countered by some sort of slight  
Your stargirl girlfriend shine keep shining brighter than the hate does  
And when you look past it, that's when it all comes back around  
And you gotta stay on top otherwise God won't have no other use for you  
I apply pressure in every single room I'm in simply for being me  
And deal with the questions about all of your excessive needs  
And you do brunches at Charlotte's Bistro, the FOMO has you  
Early tickets to DJ Kent, The Devil has your soul up for selection  
As soon as i walk in, they gotta ask about me  
Bitches smiling at me ... eternal happy hours  
They press their desperate butts up against me, hoping that they could be The One  
It's feeling like i own every place that i choose to be at now  
Walking this part of life with my crown on  
The respect i get is on overflow  
And somehow they still keep on saying that they feel me, really??

the loss does not deter me and  
the victory does not praise me,  
i seek more

#### 4. World Domination

You're not even real, i make you real  
All i care about is staying Filthy Rich  
World Domination, as a matter of fact  
Pussy, Power and Massive Respect

This is GOD on another level

You run from the might of my ascension ▲  
Too much fear keeps you stagnant  
You fund bitches, i make 'em wet  
Life is one twisted demented game 🤪  
It's very subtle, another matter of fact  
Life goes on, an endless circle ○  
There are cheat codes and repeated patterns  
I wonder if you're awake to all of it 👁  
Bored as hell, but I'm on top of it  
Sharp as hell, i cut through it  
Rock, Paper, Scissors i guess it is  
I believe in Evolution, a Cosmic President

## 5. Crown and The Root

Keep your money  
I'ma keep it 100 out of 100  
I can fuck your wife if i really wanted to  
On the throne of My Kingdom  
Crown and The Root  
You're either coming with some problems  
Or you're coming for loot  
I'm coming with the peace  
So I'm chucking the deuce 🍷  
I ain't tryna run a train  
I just want my fair share  
And I'm tryna give my brothers The Truth  
You'll never see me spaz out  
I just carry my light around, deep on my Zeus  
Rubbing on her fat ass, rewards from my God  
And my sex is 🍆, i improve her heart health  
And if she acts up i put her in her place  
See the snakes are near and they want my ear  
I pray that my God keeps my vision clear  
You can't help but stare, the moth to my flame, yea!  
They HATE the fact that i always got a fine ting under my wing, what makes me so different?  
Playing Jigsaw while I'm picking off Devils  
You wouldn't last a day in my reality  
Straight like an arrow  
Respect my genius  
Scandinavian bitch sneaking pictures  
Welcome to My World  
I'll give you this blank face, till you blink first

## 6. Turn Around!

👁 All eyes on me 👁

There's a reason behind your girl breaking her neck to look at me  
There's an energy about me that's instantaneous and unequivocally undeniable  
I'm not for Instagram  
I operate behind the scenes  
She'll OD off me, if she doesn't mind her business  
Me? In some eyes I'm gullible  
But really I'm just doing what I'm supposed to do, others would say that I'm just  
doing the Lord's work  
For life to become this comfortable  
You have to completely give your life away so that there is no possible way of  
turning away  
It works both ways  
I tell Rauha, I'm emotionless, my only goal left in life is to make as much money as  
possible  
The Devil  
I deal and play, when i sleep, i get rest  
Who knew that Capitalism was just another game  
So here i am; indisputably walking the path of life  
It's absolutely absurd that we're even here in the first place  
Along the way, i run into Andrea with her husband as they drive by  
11 years later, and still i trigger emotion in her gut  
I'm the spark of all sparks  
In alignment with the five elements of life  
Living proof that signs of the times are evolving as we speak and grind  
I feel like Eberechi Eze, unafraid to stand out and do it with style  
I tell a bitch to turn around so that i can see where we take it from here  
I'm not even rude with it, i just know what i want  
And of course they love the cockiness  
I mean, i got a cock

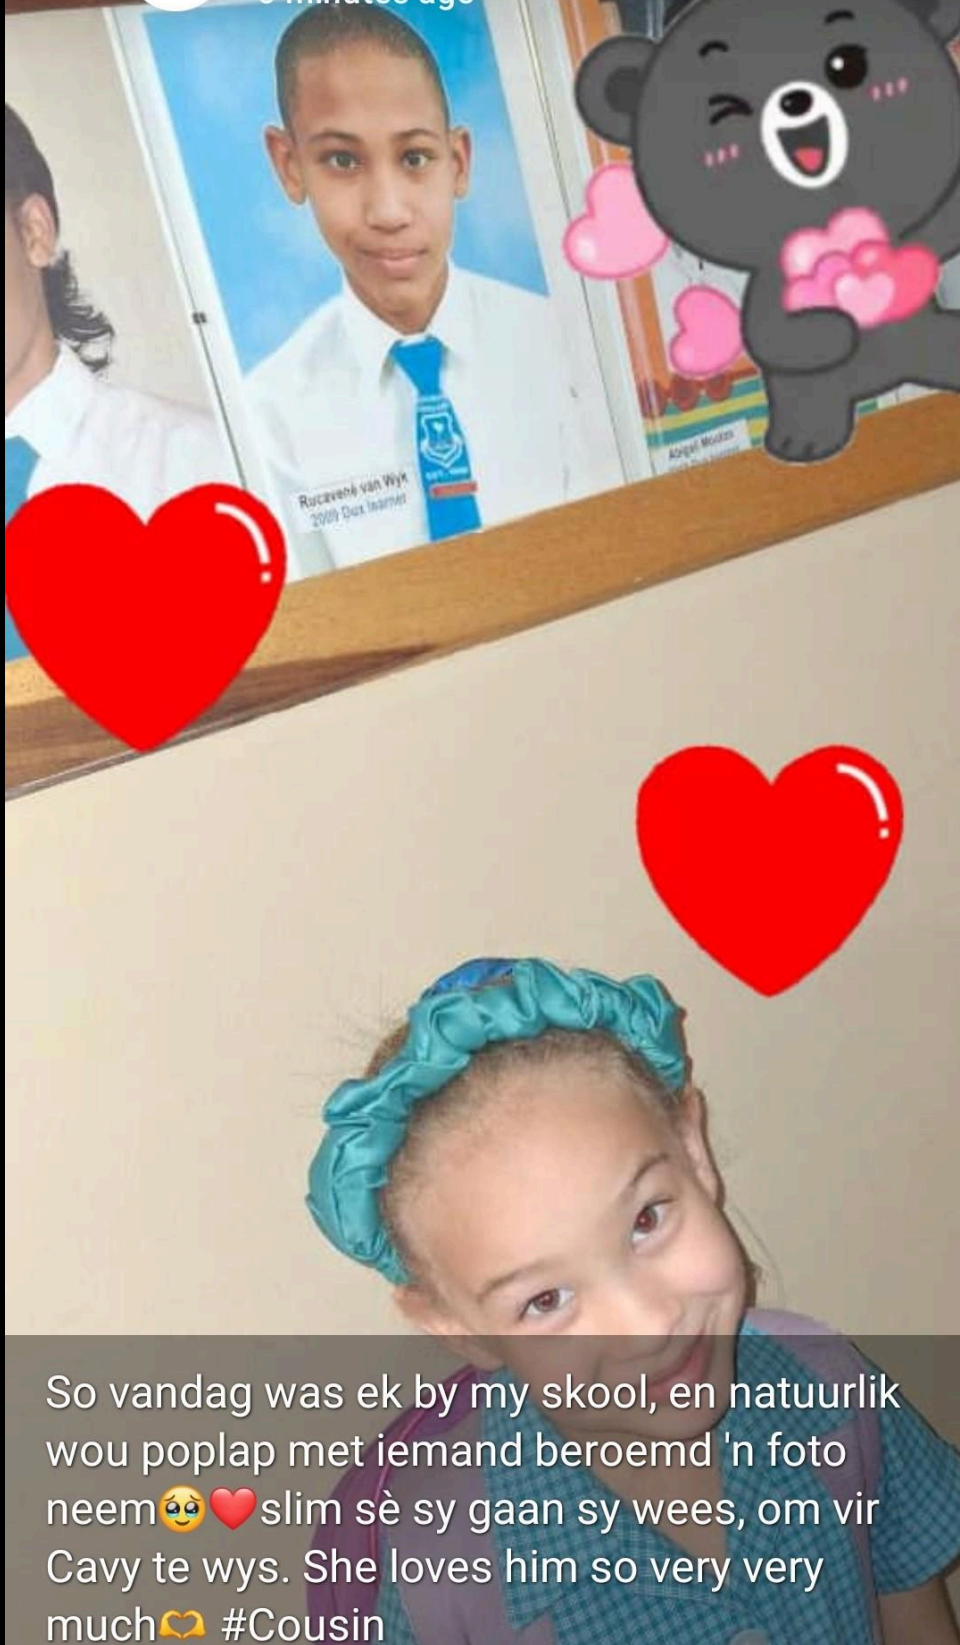

I'm still that same doe-eyed kid from Rehoboth with magic in his hands  
Guess I've caused some havoc on my climb towards the top  
Who's slighting me? Blocking my move?  
My comeback stays hot  
I'm on God's Timing, my spirit on lock  
I already earned my spot  
2025 has been my year  
Two, three bitches at once  
It's like that  
Don't act surprised, i told you this is my game!  
Rewards and access  
They hearts bleed when i step  
They reminiscing of me  
Feeling in astral to connect  
Chilling with my angels and demons  
All my sufferings are sufferings of success  
God bless my family, and all those i hold dear

So vandag was ek by my skool, en natuurlik wou poplap met iemand beroemd 'n foto neem 🥺❤️ slim sè sy gaan sy wees, om vir Cavy te wys. She loves him so very very much 🥰 #Cousin

## 7. Tight Walls and Loud Screams

This is GOD on another level

*Hella niñas*

Rising to the occasion of my darkness

Good times at mi casa

You had to see it...

Devil energy in a small-built 19-year old

Tight walls and loud screams

Yellow is my favourite Coldplay

Lust will devour if you don't know how to use it correctly - Proverbs

Bible on my fridge, I'm always eating

Sins of the fathers

Hella bitches want my kid... it's easy

How could you and me be?

Ever seen as happily ever after

We're just madly,

In love and at war and it's on and it's taxing

Playing my next move

It's all i have, and I'm peaking

Too much overthinking, get into your body

Life's a feeling

White lies serve us in times when we most need it

Sold my soul, then disappeared - i am a phantom

Look at HIM! Rich as fuck!

Every bitch wants a piece of me

I hope you brought your strong will

Stab you in the gut,

Deep within,

In your feelings,

Overemotional being; you fucks are all beneath me!

Untouched like the mafia

Keeping the bright side on top; i have no other choice, i have to

The only place you'll find me

*Hella niñas*

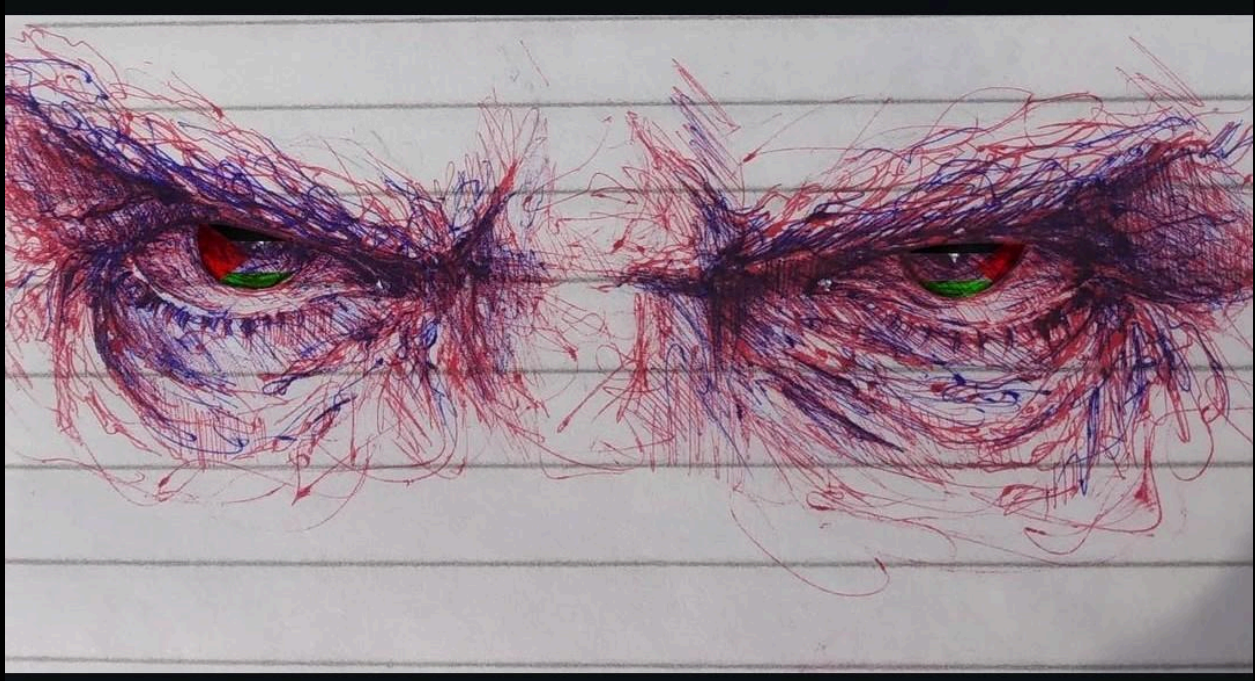

Rising to the occasion of my darkness

Good times at mi casa

You had to see it...

Devil energy in a small-built 19-year old

Tight walls and loud screams

## 8. SEISMIC!

I know you still feel for me  
Even your new guy knows, someone feel sorry  
No more push and pull, I'm the captain now  
Love lockdown, there's always a Ye song

You're yearning for my return  
Laying next to him you're daydreaming of my skin  
You remember when i asked how you liked it  
You said "rough", and silly me, i was already busy going in 🍆😳💦  
My passion only amplified! 💥  
Taking down double your size, destroy! 😈  
Man, i coulda never fathomed...  
How a simple connection could have such ultra-seismic reactions  
It's cool now coz all the girls are happily cashing in on what you dared let go  
Uh-oh, until the end of time  
I got it; spirit-air-water-earth-fire  
Yup!  
You know I'm the only one to get you revved up, spread you open, and then take  
your soul  
Yup!  
God knows how you keep running to that new dude just to try and forget, only to  
hit a landslide

## 9. Mulani's Law

Are you mad at me?  
Are you irritated i let you love me?  
You were coronated  
Are you showing off because you with a new mans now?  
Don't be showing off, we all know it's a lie, babe  
Don't be showing out ...  
When you with your mans, babe  
Please don't let me catch y'all on these streets, babe  
It's a thousand ways to misunderstand, babe  
It's a thousand ways that we can make amends, babe  
Stop lying, i didn't only love you with your panties off  
I showed you LIGHT  
I showed you grown man talk  
Soul differences is why we're not together  
I stand my ground, why you always on the edge, babe?

Why you mad at me?  
Why you irritated that women love me?  
You were coronated  
Why you showing off because you with a new mans now?  
Don't be showing off, we all know it's a lie, babe

Makes no sense ... life, life, life  
There's a spirit in me that never dies  
Never dies

Makes no sense ... life, life, life  
Mulani would give it up as soon as she gets a taste  
She got a taste

## 10. Fire

Sorry Gran, but you don't need to know this  
Sorry Gran, i don't call as much as you want to  
You don't fit into this part of my life  
I'm fighting demons and need masculine energy  
I'm walking the path of life like a dummy  
If i ever got a hoe walking down the aisle, just pray she loves me  
I like 'em skinny, but mostly curvy  
There's really no telling where this is going...

Hoe... it's your birthday, your birthday  
It's your birthday, tell your mans to take a picture  
It's your birthday from now to December  
It's your birth month, how could i not remember  
We vibed so i purged all your worries  
You're a Leo, no wonder we love playing with fire  
Taught you that beyond me there's not much better  
Coz I'm God's favourite weapon for advancement

Me and my grandma when we used to chill together

Still meme'd from [Courage the Cowardly Dog](#)

## 11. Kevil

Somebody said they saw us  
We looked picture-perfect; a couple for sure  
And i would never ask you  
I just kept it to myself

Love is something we don't know  
We know money, cars, clothes and showing off  
Eternal youth; a shining light when we walk  
And when they envy, we just stunt some more  
Oh, baby, love is something we don't know  
Oh, oh, baby

I think about it when you rest your head on me  
When looking in your eyes, I see The Devil in me  
They don't need to know the truth  
Baby, let's just keep it to ourselves...

Love is something we don't know  
We know money, cars, clothes and showing off  
Eternal youth; a shining light when we walk  
And when they envy, we just stunt some more  
Oh, baby, love is something we don't know

## 12. Zeta

Love

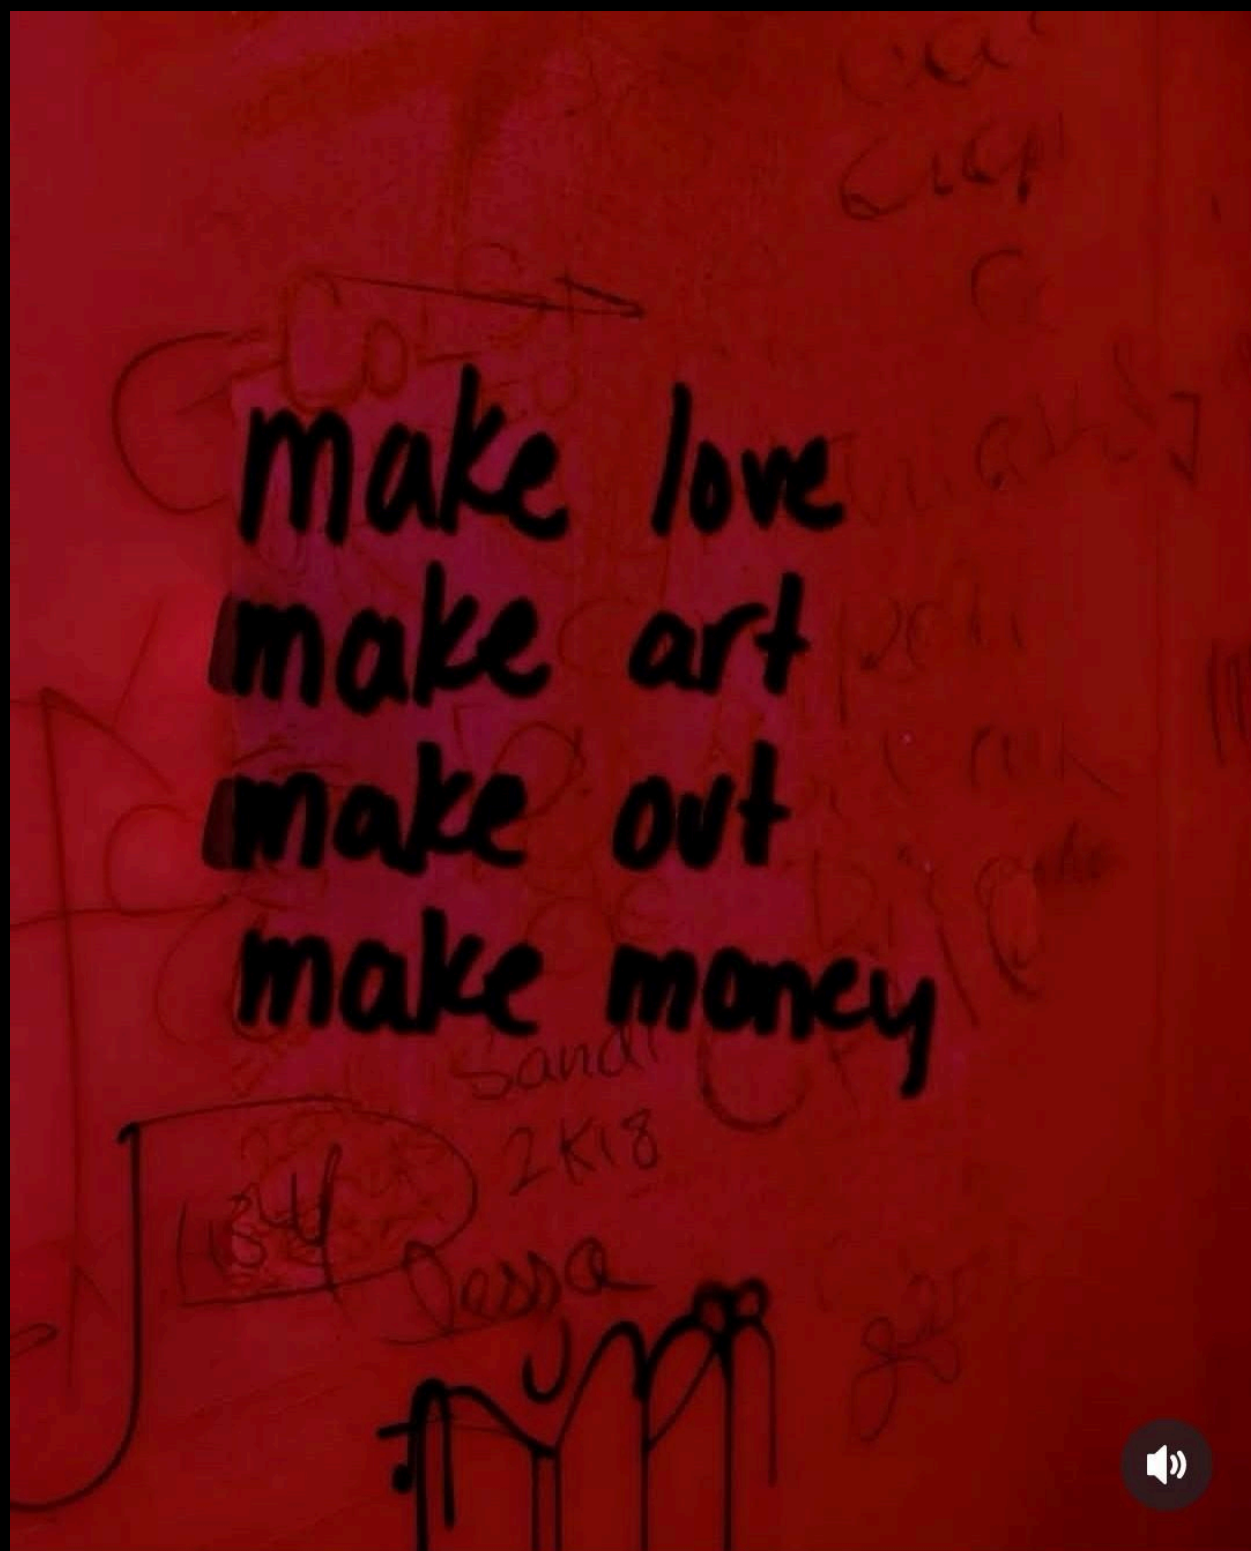

Love, love, love, love, love, love, love, love  
I've got it in bucket loads for you, babe

Now this right here is not a declaration...  
I need to let it flow...

Now this right here is not a declaration...  
Of undying loving intent  
Or nothing like that  
I share things i think quietly  
With those that admire me  
You know how you brush off other dudes for me, it's something like that  
I wear my heart upon my sleeve, and i...  
Bleed for you  
Jotting down words, hoping to find meaning for a living  
When i release, trust if you feel like my shit is weak  
When you see me on these streets, then speak  
I'll recalibrate you

...  
Do you agree?  
It's been a long time coming  
This thing between you and me  
I can't let it go  
You can't let it go  
I think we need to...  
Let it flow, let it flow, let it flow  
They say we need to let it flow  
Coz nothing even matters

### 13. RIP Diogo Jota

All is fair at The World's Fair  
Even if some things don't make sense at all  
Locked in every morning to work  
Locked in when i go out to play  
Mac only made it to 26  
Suicide attempt at 27  
Jota only made it to 28  
It's only right that i gotta get rich  
Cut niggas off, put bitches in line  
Give 'em an inch and they'll bite off your whole arm  
Niggas wanna fuck your bitches too  
Life is just one big messy game  
Please excuse my French  
I wanna impregnate an African queen  
Have strong little Cavy's running around  
Gotta build towards a better future  
In a world full of gangsters, killers and scammers

I don't want a wife, i want a hot thing  
I'm just playing my best deal  
Growing up i didn't understand love  
Now the power i possess feels unreal

Okay, i want a wife and a hot thing  
I think that's a much better deal  
Growing up i didn't understand love  
Now the power i possess feels unreal
